the present work is a study of the method of contemporary soviet philosophy by soviet philosophy we mean philosophy as published in the soviet union for practical purposes we have limited our attention to soviet sources in russian in spite of the fact that soviet philosophical works are also published in other languages see b 2029 21 38 the term method is taken in the sense usual in western books on methodology 1 in view of the content of the first chapter it will be useful to explain the last term a little more fully by method we mean a procedure and it is obvious that the principles according to which a procedure is carried out are rules i.e. imperatives which tell us not what is but what should be done such imperatives may or may not be connected with and founded on certain descriptive statements the fact that every rule of formal logic is based on a corresponding law has been well known since husserl's *logische untersuchungen* and is generally accepted in contemporary logic but such a foundation is irrelevant to a methodological study the object of such a study is to find out what these rules are why they are accepted and how they are interconnected and applied this is how methodology the science of method is conceived in western treatises on the subject and this is also the standpoint assumed here
