for two decades beginning in the early 1870s robert keller music editor for n simrock verlag in berlin worked with diligence and

devotion to usher into print most of Johannes Brahms's major compositions including all four of his symphonies, the violin concerto, the double concerto, the second piano concerto, and numerous chamber, choral, and vocal works. This volume collects for the first time the complete extant correspondence between Brahms and Keller as preserved in the collections of the Library of Congress and the Gesellschaft der Musikfreunde in Vienna. To read their correspondence is to witness a relationship of mutual respect and increasing friendship and to gain an appreciation for the meticulous labor that went into the publication of Brahms's masterpieces. Keller's admiration for the composer's genius was answered by Brahms's affection for Keller's diligence and musical expertise. The vicissitudes of the publication process from composer's manuscript to printed score are documented in fascinating detail. This edition includes a transcription of the letters in the original German.

Mathematical Statistics with Applications provides a calculus-based theoretical introduction to mathematical statistics while emphasizing interdisciplinary applications as well as exposure to modern statistical, computational, and simulation concepts that are not covered in other textbooks.
