one of the great maxims of history is that it is written by the victors and nowhere does this find greater support than in the later roman empire between 284 and 395 ad no fewer than 37 men claimed imperial power though today we recognize barely half of these men as legitimate rulers and more than two thirds died at their subjects hands once established in power a new ruler needed to publicly legitimate himself and to discredit his predecessor overt criticism of the new regime became high treason with historians suppressing their accounts for fear of reprisals and the very names of defeated emperors chiselled from public inscriptions and deleted from official records in a period of such chaos how can we ever hope to record in any fair or objective way the history of the roman state emperors and usurpers in the later roman empire is the first history of civil war in the later roman empire to be written in english and aims to address this question by focusing on the various ways in which successive imperial dynasties attempted to legitimate themselves and to counter the threat of almost perpetual internal challenge to their rule panegyric in particular emerges as a crucial tool for understanding the rapidly changing political world of the third and fourth centuries providing direct evidence of how in the wake of civil wars emperors attempted to publish their legitimacy and to delegitimize their enemies the ceremony and oratory surrounding imperial courts too was of great significance used aggressively to dramatize and constantly recall the events of recent civil wars the narratives produced by the court in this context also went on to have enormous influence on the messages and narratives found within contemporary historical texts in its exploration of the ways in which successive imperial courts sought to communicate with their subjects this volume offers a thoroughly original reworking of late roman domestic politics and demonstrates not only how history could be erased rewritten and repurposed but also how

civil war and indeed usurpation became endemic to the later empire

sir thomas fairfax not oliver cromwell was creator and commander of parliament s new model army from 1645 to 1650 although fairfax emerged as england s most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics the book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and fairfax s relationship with cromwell black tom delivers a groundbreaking examination of the transformative experience of the english revolution from the viewpoint of one of its leading yet most neglected participants it is the first modern academic study of fairfax making it essential reading for university students as well as historians of the seventeenth century its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally

joel m rothman considers the significance of cosmology in biblical and extra biblical texts and the role of the cosmic journey in many apocalyptic narratives he posits that revelation s narrative likewise takes the hearer on a virtual journey through a cosmic story space of great theological significance while scholarship commonly assumes a three tiered cosmos in revelation rothman argues that revelation s narrative operates in a four tiered cosmos with the hyper heaven sitting above the sky heaven earth and abyssal depths a cosmic story space that is recreated in the imagination of the hearers beginning with a methodology of visual narrative reading rothman then discusses the assumptions and existing conceptions regarding heaven and earth he stresses that revelation does not exhibit tension in its portrayal of heaven between heaven as a site of conflict and heaven as the realm in which god truly reigns but rather shows readers a sky heaven characterised by archetypal conflict between powerful sky beings and a hyper heaven defined by full recognition of the throne in journeying through the sky structure and god space and by analysing the four cosmic layers in operation the distinct nature of the two sky spaces cosmic change and the ideological import of the cosmic structure rothman demonstrates that the existence of the hyper heaven in contradistinction with the limited lived cosmos of earth and sky heaven is a present guarantee of the final cosmic transformation that creates a new space for human life exclusive of imperial draconian elements

at the centre of the roman empire stood the emperor and the court surrounding him the systematic investigation of this court in its own right however has

been a relatively late development in the field of roman history and previous studies have focused on narrowly defined aspects or on particular periods of roman history this book makes a major contribution to understanding the history of the roman imperial court the first volume presents nineteen original essays covering all the major dimensions of the court from the age of augustus to the threshold of late antiquity the second volume is a collection of the ancient sources that are central to studying that court the collection includes translations of literary sources inscriptions and papyri plans and computer visualizations of archaeological remains and photographs of archaeological sites and artworks depicting the emperor and his court

a book about perception and imagination of death dying and the beyond in ancient cultures from mesopotamia and egypt to rome and even the incas the collected studies explore apotropaic or celebratory rituals of death the imagined processes of dying and the imagination of the dead in the minds of the living and mourning relatives

from the days of the emperor augustus 27 b c a d 14 the emperor and his court had a quintessential position within the roman empire it is therefore clear that when the impact of the roman empire is analysed the impact of the emperor and those surrounding him is a central issue the study of the representation and perception of roman imperial power is a multifaceted area of research which greatly helps our understanding of roman society in its successive parts this volume focuses on 1 the representation and perception of roman imperial power through particular media literary texts inscriptions coins monuments ornaments and insignia but also nicknames and death bed scenes 2 the representation and perception of roman imperial power in the city of rome and the various provinces 3 the representation of power by individual emperors
