psychology

as the 21st century opened the discipline of psychology seemed to be separating into two radically distinct domains qualitative and cultural psychology focused on the discursive means for the management of meaning in a world of norms while neuropsychology and neuroscience focused on the investigation of brain processes these two domains can be reconciled in a hybrid science that brings them together into a synthesis more powerful than anything psychologists have achieved before for the first time there is the possibility of a general psychology in which the biological and the cultural aspects of human life coalesce into a unitas multiplex unity in diversity this textbook ambitiously aims to and succeeds in providing this unity fathali m moghaddam and rom harrington have designed a textbook brought together with additional voices that speak to the similarities and differences of these two seemingly distinctive domains this bridge building will encourage a new generation of undergraduate students studying psychology to more fully appreciate the real potential for the study of human behaviour and as such it will represent a more provocative alternative to standard general psychology textbooks it also support teaching in a host of courses namely 2nd and 3rd courses on the conceptual and philosophical nature of psychology social psychology critical psychology and cognitive science selectively it will also represent a very interesting and different choice for foundation level students too

drawing from the latest research and literature kalat's bestselling introduction to psychology teaches you how to evaluate the evidence to separate the plausible from the scientifically demonstrable helping you become a savvier consumer of information thoroughly updated it includes expanded coverage of replicability and research misconduct and revisits several classic topics in the light of new scholarly insight what's the evidence coverage reviews important studies encouraging you to question the strengths and limitations of the evidence hands on try it yourself activities allow you to personally experience numerous phenomena to help you remember them better with his friendly writing style and many learning tools kalat puts you at ease and enables you to actively participate in what you are studying also available mindtap digital learning solution
