this book shows for the first time the indispensable role of the burford masons a group of master masons from the historic quarries around burford oxfordshire in creating some of the foremost buildings of the 17th and early 18th centuries the burford masons were involved in the construction of such outstanding buildings as st paul s cathedral city churches and blenheim palace among many others whilst credit for many of these buildings generally rests with named architects sir christopher wren in particular this book shows how reliant these designers were on their master craftsmen sometimes involving them in the design process as their ideas evolved the book further shows how the burford masons responded to

the challenge of late payments often of many years becoming financiers in the process it reveals how as risk taking businessmen they effectively underpinned both public and private development financially and how extraordinary success transformed their lives the reader will learn about the vital part played in the early modern period by master craftsmen of the calibre of the burford masons despite the emergence of the architect as lead designer whose fame has hitherto overshadowed them as a result this book will be a compelling read for anyone interested in architectural construction or social history

no king of england had had a more secure or more enviable inheritance than that to which james vi of scotland succeeded as james i of england on the death of his distant cousin the childless queen elizabeth on 24 march 1603 over the previous century the tudors had overcome fundamental opposition to their rule and built a durable system of government the great baronial families which had fought the wars of the roses in the later fifteenth century had been tamed or extinguished and their military followings abolished by the end of the sixteenth century a high proportion of noble families owed their eminence not to independent bases of power in the regions where their estates lay but to the favour of the crown whose policies they implemented in the localities and at whose court they competed for further rewards in areas where previously the king's writ had at times seemed scarcely to run especially wales and the north of england the royal machinery of justice had first rivalled and then superseded the power of local magnates as a focus of loyalty by the time of james i's accession the regional rebellions of 1536-69 belonged to the past introduction
