renewable energy has enjoyed relatively good and sometimes extraordinary growth in recent years in particular photovoltaics and wind but it will be difficult to sustain such rates of diffusion on a global basis a more complete transition to renewable energy is required on a demanding timescale set by climate change and fossil fuel depletion this book analyses strategies for promoting renewable energy within the context of a rapid energy transition using case studies from different countries over the past 30 years having described the global context in detail covering oil and gas depletion climate change third world development and the potential for renewable energy the authors evaluate support mechanisms at national and international levels offering readers a clear understanding of the regulatory framework and an opportunity to promote renewable energy effectively this book offers energy policy makers renewable energy professionals energy consultants and students a platform for development and an invaluable research text contributing authors include jorg schindler and werner zittel ludwig bohlkow systemtechnik germany ian rowlands university of waterloo canada giulio volpi wwf europe kristian hvitfelt nielsen aarhus university denmark staffan jacobsson chalmers university of technology sweden peter connor university of warwick uk ole langniss centre of solar energy and hydrogen research in baden wurttemberg germany ryan wiser lawrence berkeley national laboratory us david elliot the open university uk and frede hvelplund aalborg university denmark

the sciences of homosexuality in early modern europe investigates early modern scientific accounts of same sex desires and the shapes they assumed in everyday life it explores the significance of those representations and interpretations from around 1450 to 1750 long before the term homosexuality was coined and accrued its current range of cultural meanings this collection establishes that efforts to produce scientific explanations for same sex desires and sexual behaviours are not a modern invention but have long been characteristic of european thought the sciences of antiquity had posited various types of same sexual affinities rooted in singular natures these concepts were renewed elaborated and reassessed from the late medieval scientific revival to the early enlightenment the deviance of such persons

seemed outwardly inscribed upon their bodies documented in treatises and case studies it was attributed to diverse inborn causes such as distinctive anatomies or physiologies and embryological astrological or temperamental factors this original book freshly illuminates many of the questions that are current today about the nature of homosexual activity and reveals how the early modern period and its scientific interpretations of same sex relationships are fundamental to understanding the conceptual development of contemporary sexuality

originally a concern primarily of social studies and economics poverty has emerged as a significant thematic focus and analytical tool in literary and cultural studies in the last two decades the new poverty studies are dedicated to analyzing representations of poverty and the poor in literature and the visual arts in the news media and in social practices they aim at exploring the frameworks of representation that impact the affective and ethical responses of audiences to disenfranchised groups such as the poor the contributions to this volume focus on representations of poverty in the anglophone postcolonial world exploring for example contemporary discourses on poverty in the uk filmic representations of nairobi slums or the agency of the poor in literature from india

whole person self healing brings an interdisciplinary healing approach to relieve pain and suffering the book covers different topics that introduce readers to alternative therapies that can help the healing processes in the body these topics include an introduction to pulsed electromagnetic fields and their use in healing medicine stable bose einstein statistics meditation techniques scientific measurement of qi energy and qigong practice methods the book also presents cases of family based therapy and individuals recovering from painful injury whole person self healing presents information based on physics research and subjective accounts of individuals the book offers general readers researchers and therapists a scientific perspective on the benefits of electromagnetic field therapy and meditation for healing the body
