a call to advance integrative teaching and learning in higher education from parker palmer best selling author of the courage to teach and arthur zajonc professor of physics at amherst college and director of the academic program of the center for contemplative mind in society comes this call to revisit the roots and reclaim the vision

of higher education the heart of higher education proposes an approach to teaching and learning that honors the whole human being mind heart and spirit an essential integration if we hope to address the complex issues of our time the book offers a rich interplay of analysis theory and proposals for action from two educators and writers who have contributed to developing the field of integrative education over the past few decades presents parker palmer s powerful response to critics of holistic learning and arthur zajonc s elucidation of the relationship between science the humanities and the contemplative traditions explores ways to take steps toward making colleges and universities places that awaken the deepest potential in students faculty and staff offers a practical approach to fostering renewal in higher education through collegiality and conversation the heart of higher education is for all who are new to the field of holistic education all who want to deepen their understanding of its challenges and all who want to practice and promote this vital approach to teaching and learning on their campuses

just as higher education here in europe had its beginnings in religious training for the priesthood here in feudal japan too provided instruction for a religious life but while the evolution to secular instruction was gradual in europe in japan it came with a big bang the opening of the country and consequent westernization and all that that involved in the mid 19th century this first volume in the new japan documents handbook series tells the story in 25 chapters of how japan s higher system has become what it is now ending with a very tentative glimpse into the rest of the 21st century a variety of themes are covered by scholars chapters that concentrate on governance look at the distinction between national public and private institutions others consider important topics such as internationalization student recruitment and faculty mobility more innovative topics include women of color leading in japanese higher education all provide copious references to other authorities but rather than just toe the conventional line they include opinions and proposals that may be contentious or even revolutionary the editor provides an overview of the subject and its treatment in an introduction

how can we compare national systems of higher education since their organization varies from country to country clark identifies the basic elements common to all such systems and proceeds to thematic comparisons among a number of countries

this book presents the state specific dimensions of the governance of higher education in bihar india based on a real case perspective it discusses the policies of the center and state governments and their implications on the state s higher education system it addresses the issues and challenges faced by the higher education sector from the point of view of multiple stakeholders at center state university and college levels while examining influential power centers the volume focuses on select universities in the state and looks at how they manage policies schemes and regulations it deals with key themes such as the role of state and regulatory bodies such as the university grants commission the balance of power resource scarcity the inadequacy of top down governance models governance failure and the autonomy of universities it explores the conflict between the politics and economics of governance and efficiency the promotion and recruitment of senior office bearers and teachers the privatization of

colleges and financing admission and examination systems through an in depth study using empirical unit level data from the all india survey of higher education examples and theoretical frameworks the book analyzes the reasons for the underperformance of the governance system of higher education in bihar it also offers suggestions and policy recommendations to help improve its planning and management via participative and responsible governance and informed institutional leadership this book will be of interest to students teachers and researchers of education higher education economics governance and public administration and development studies it will also be useful to educationists and experts education administrators policymakers bureaucrats and the governing bodies of higher education institutions

this book discusses higher education research as a field of study in asia it traces the evolution of research in the field of higher education in several asian countries and shares ideas about the evolving higher education research communities in asia it also identifies common and dissimilar challenges across national communities providing researchers and policymakers essential new insights into the relevance of a greater regional articulation of national higher education research communities and their further integration into and contribution to the international higher education research community as a whole

university rankings have gained popularity around the world and are now a significant factor shaping reputation this book is the first comprehensive study of rankings from a global perspective making an important contribution to our understanding of the rankings phenomenon this book has also been published in japanese

this book explores quality assessment and enhancement in higher education in africa to illustrate the need to develop quality practices in measuring effective education and continually search for permanent improvement the book demonstrates that technological and socio economic trends innovations and inventions of the twenty first century demand that additional attention be placed upon education for national regional and international development since conventions for quality assessment and enhancement need to be defined and systematic structures constructed to develop quality practices the book shows how quality in higher education within africa has been established and advanced to provide a framework for monitoring auditing and reviewing assessment and enhancement though the book considers african complexities and diversity it incorporates global trends and utilises an international focus that enables readers to devise appropriate strategies for developing and enhancing quality and standards in higher education in both continental africa and beyond illustrating why quality assessment and enhancement should be embraced in all aspects including inputs processes outputs and outcomes in educational settings globally this book will be of interest to policymakers and scholars in the fields of higher education quality and global studies african education african studies and management and administration leadership and professional development studies

this open access book presents deep investigation to the manifold topics pertaining to global university collaboration it outlines the strategies king abdulaziz university has employed to rise in global rankings and the reasons chosen to collaborate with other

academic and research institutes the environment in which universities currently exist is considered and subsequently how an innovative culture might be established and maintained to enable global partnerships to be implemented and to succeed is discussed the book provides an intense focus on why collaboration is a necessary ingredient for knowledge transfer and explains how to do it the last part of the book considers how to sustain partnerships this is because one of the challenges of global partnerships is not just setting them up but also sustaining them

seminar paper from the year 2018 in the subject business economics economic and social history grade 1 language english abstract educational expansion is usually given paramount consideration in the modern society it is the dream of every parent to ensure his child acquires higher education this desire has led to an immense expansion higher education in the united states over the twentieth century it is explicit that higher education bears a wide range of benefits to individuals as well as the government foremost individuals with higher education benefit from what is referred to as positive selection a utility maximization paradigm based on economic factors holds that attainment of higher education corresponds to high economic returns the precepts of the positive selection hypothesis as described by heckman urzua vytlacil 2006 hold that those who acquire higher education benefit most from it as such it is apparent that higher education has economic and social benefits for instance college graduates receive better remuneration than their counterparts with a high school diploma it is also true that higher education attracts a high social esteem in the modern society despite these benefits higher education has negative aspects too therefore this paper aims at providing a comprehensive discussion of the negative aspects of higher education

while quantitative analyses of higher education in india are plentiful informed research on higher education policy at the state level remains limited this volume seeks to fill that gap it is the outcome of a multi state study sponsored by the icssr examining higher education policies in four southern states andhra pradesh pre bifurcation karnataka kerala and tamil nadu and the western state of maharashtra set against both historical contexts and contemporary realities each state specific case study offers a critical assessment of higher education policy and reflects on the factors that have significantly influenced policy processes a common feature across these states is the overwhelming presence and influence of unaided private educational institutions whose dominance has shaped policy orientations and enabled their largely unchallenged expansion within the higher education system however the factors shaping state policies on expansion and qualitative development vary considerably in andhra pradesh political affiliations and caste considerations have influenced policy directions in karnataka policy responses have oscillated in reaction to expert recommendations in tamil nadu higher education policy has been shaped by competitive politics centred on vision access and affordability maharashtra provides a striking example of an education politics nexus that has weakened university autonomy while kerala stands apart with relatively slower growth but a sustained focus on equity driven expansion through regulated privatisation together these states account for more than 40 percent of all higher education institutions in the country the

policy trends explored in this volume therefore offer important insights into the evolving trajectory of higher education in india as a whole this work will be of considerable value to planners administrators researchers and students engaged in a deeper analysis of education policy in india

the definitive history of american higher education now up to date colleges and universities are among the most cherished and controversial institutions in the united states in this updated edition of a history of american higher education john r thelin offers welcome perspective on the triumphs and crises of this highly influential sector in american life exploring american higher education from its founding in the seventeenth century to its struggle to innovate and adapt in the first decades of the twenty first century thelin demonstrates that the experience of going to college has been central to american life for generations of students and their families drawing from archival research along with the pioneering scholarship of leading historians thelin raises profound questions about what colleges are and what they should be covering issues of social class race gender and ethnicity in each era and chapter this new edition showcases a fresh concluding chapter that focuses on both the opportunities and problems american higher education has faced since 2010 the essay on sources has been revised to incorporate books and articles published over the past decade the book also updates the discussion of perennial hot button issues such as big time sports programs online learning the debt crisis the adjunct crisis and the return of the culture wars and addresses current areas of contention including the changing role of governing boards and the financial challenges posed by the economic downturn anyone studying the history of this institution in america must read thelin s classic text which has distinguished itself as the most wide ranging and engaging account of the origins and evolution of america s institutions of higher learning

published annually since 1985 the handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities each chapter provides a comprehensive review of research findings on a selected topic critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic the handbook focuses on twelve general areas that encompass the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community the series is fortunate to have attracted annual contributions from distinguished scholars throughout the world

excellence in higher education is as old as university but nowadays the concept is widely emphasized and its meaning has been redefined on the basis of different values and goals especially those related to market excellence has become the meter on which institutions are assessed and public funding allocated the tool by which worldwide comparisons and rankings of institutions are built and a marketable brand used by higher education institutions to present themselves this book offers an international and comparative view on excellence in higher education ranging from policies to practices mainly based on research results and empirical evidence aiming at questioning the concept and its uses which are not only social constructions but also

political ones far from being a neutral or technical concept excellence is heavily infused with values which must be traced analysed and made critical to understand its impacts backlashes and unintended outcomes on higher education systems institutions academics and students the book is addressed to an international audience and in particular to higher education scholars and professionals those who are involved in higher education assessment members of professional bodies and organizations in the higher education field students in education but also policy makers and the public opinion at large will profit from the works of a selected group of scholars coming from a variety of countries a sense of disquietude seems ever present when discussing new digital practices the transformations incurred through these can be profound troublesome in nature and far reaching moral panics remain readily available

most statements today about higher education begin with the assumption that it should be relevant that it should be relevant however does not settle the matter the significance of relevance depends on the power of something else that is more fundamental relevance may be a true standard of judgment but it does not stand by itself assuming higher education should be relevant the question emerges relevant to what why how at what costs and relevant in what sense these are some of the central questions animating this study the relevance of higher education exploring a contested notion edited by timothy I simpson examines the relevance of higher education by bringing together the work of historians political scientists and educational philosophers the contributors probe the meaning of relevance in its many guises providing an historical and philosophical account of the roots of this concept and its impact on the institution of higher education furthermore the relevance of higher education provides a critical evaluation of the impact of relevance on our understanding of the political and economic relationship between higher education and society this study suggests views of relevance that could guide the future of higher education by providing penetrating analysis this text thoroughly explores relevance and its underlying assumptions potential implications and long lasting effects on higher education and society the relevance of higher education provides the tools necessary to develop a rich framework for understanding relevance and its impact on higher education and society

examines the understanding practices and challenges that malaysia s higher education institutions face in their efforts to internationalize this issue is of great importance to academics policy makers and students in malaysia given the country s aspiration to become a hub for higher education
