the making sense series comprises five concise readable guides to research and writing for use by students at all levels of undergraduate study designed especially for students in psychology and the life sciences including biology and zoology this book outlines the general principles of style grammar and usage while covering such issues as how to prepare papers using apa guidelines how to write research proposals and honours theses and how to use graphic presentation software when giving an oral presentation this fourth edition of the book has new material on evaluating internet sources and avoiding plagiarism as well as new and updated examples

this book is your guide to awesomeness it guides teaches on how to study and acquire know how that becomes inseparable from your person knowledge that defines who you are as a student an employee and an individual it is a guide to all who study whether they seek academic qualifications or otherwise it is for those who seek only mastery and perfect understanding of that which they set their minds to internalise it is not about brilliant exams scores though it recognises that a brilliant student is one who passes exams and passes them with considerable ease this book by facilitating and encouraging mastery of a subject of study will guarantee brilliant exam scores anyone who has ever been to school or university knows students want brilliant exam scores because they are the visible reward society stamps on the exceptional student and for that reason we will look at exams their purpose structure and how to pass them there are therefore three goals to this book the first is to turn s he that reads and follows the guidelines into an exceptional student the second is to make the student rediscover the joys of learning and lastly it seeks to create students who are so good derive so much fun and pleasure from acquiring knowledge that examinations become just another fun thing to do

this student guide is exceptional maybe even unique among such guides in that its author fred soon was actually a student user of the textbook during one of the years we were writing and debugging the book he was one of the best students that year by the way because of his background fred has taken in the guide the point of view of an experienced student tutor helping you to learn calculus while we do not always think fred s jokes are as funny as he does we appreciate his enthusiasm and his desire to enter into communication with his readers since we nearly always agree with the mathe matical judgements he has made in explaining the material we believe that this guide can serve you as a valuable supplement to our text to get maximum benefit

from this guide you should begin by spending a few moments to acquaint yourself with its structure once you get started in the course take advantage of the many opportunities which the text and student guide together provide for learning calculus in the only way that any mathematical subject can truly be mastered through attempting to solve problems on your own as you read the text try doing each example and exercise your self before reading the solution do the same with the quiz problems provided by fred
