only recently has it become obvious that conductors annotated scores and marked orchestral parts are of great cultural historical and musical importance in the not so distant past these artefacts had something of an uncertain status with many either languishing unopened in libraries and family archives or simply being dispersed or discarded with the help of institutions such as the royal academy of music harvard university and the new york philharmonic orchestra this has begun to change with their extensive collections of these materials now being made available to scholars and musicians this element examines the emergence of these artefacts as didactic and interpretative tools and explores the ways in which the performance styles of ten iconic conductors active in the nineteenth twentieth and twenty first centuries are reflected in their annotated scores and marked orchestral parts of mozart s symphony no 41 k 551 jupiter

the question of whether music has meaning has been the subject of sustained debate ever since music became a subject of academic inquiry is music a language does it communicate specific ideas and emotions what does music mean and how does this meaning occur kofi agawu s music as discourse has become a standard and definitive work in musical semiotics working at the nexus of musicology ethnomusicology and music philosophy and aesthetics agawu presents a synthetic and innovative approach to musical meaning which argues deftly for the thinking of music as a discourse in itself composed not only of sequences of gestures phrases or progressions but rather also of the very philosophical and linguistic props that enable the analytical formulations made about music as an object of study the book provides extensive demonstration of the pertinence of a semiological approach to understanding the fully freighted language of romantic music stresses the importance of a generative approach to tonal understanding and provides further insight into the analogy between music and language music as discourse is an essential read for all who are interested in the theory analysis and semiotics of music of the romantic period

the symphony remained a major orchestral form in australia between 1960 and 2020 with a body of diverse and interesting symphonies produced during the 1960s and 1970s that defied the widespread modernist trends of serialism electronic music and indeterminism that seemed harbingers of the symphony s

demise from the late 1970s onwards many Australian composers chose to work in styles that admitted modal and tonal melodic and harmonic elements with regular pulse major cycles of symphonies by Carl Vine, Brenton Broadstock and Ross Edwards began to appear in the late 1980s. Other prolific symphonists like Paul Paviour (10 symphonies), David Morgan (15 symphonies), Philip Bracanin (11), Peter Tahourdin (5), John Polglase (5) and many others demonstrated a revived interest in the form. This trend continued into the first two decades of the present century with symphonies by Matthew Hindson, Katy Abbott, Stuart Greenbaum, Andrew Schultz, Mark Isaacs and Gordon Kerry. This renewed interest in the symphony reflects similar trends in Britain and the United States. Rhoderick McNeill provides a comprehensive introduction to this large body of music with the aim of making the music and its composers known to concertgoers, music educators and students, conductors and music entrepreneurs.

Why would Gustav Mahler (1860–1911), modernist titan and so-called prophet of the new music, commit himself time and again to the venerable sonata-allegro form of Mozart and Beethoven? How could so gifted a symphonic storyteller be drawn to a framework that many have dismissed as antiquated and dramatically inert? Mahler's symphonic sonatas offer a striking new take on this old dilemma. Indeed, it poses these questions seriously for the first time rather than downplaying Mahler's sonata designs as distracting anachronisms or innocuous groundplans. Author Seth Monahan argues that for much of his career Mahler used the inner goal-directed dynamics of sonata form as the basis for some of his most gripping symphonic stories, laying bare the deeper narrative-processual grammar of Mahler's evolving sonata corpus. Monahan pays particular attention to its recycling of large-scale rhetorical devices and its consistent linkage of tonal plot and affect. He then sets forth an interpretive framework that combines the visionary insights of Theodor W. Adorno, whose Mahler writings are examined here lucidly and at length, with elements of Heppokoski and Darcy's renowned sonata theory. What emerges is a tensely dialectical image of Mahler's sonata forms: one that hears the genre's compulsion for tonal rhetorical closure in full collision with the spontaneous narrative needs of the surrounding music and of the overarching symphonic totality. It is a practice that calls forth sonata form not as a rigid mold but as a dynamic process rich with historical resonances and subject to a vast range of complications, curtailments and catastrophes. With its expert balance of riveting analytical narration and thoughtful methodological reflection, Mahler's symphonic sonatas promises to be a landmark text of Mahler reception and one that will reward scholars and students of the late Romantic symphony for years to come.
