system showing that success or failure on campaign rested on the day to day experiences of regimental units rather than the army as a whole bamford draws his title from the words of captain moyle sherer who during the winter of 1816 1817 wrote an account of his service during the peninsular war my regiment has never been very roughly handled in the field but alas what between sickness suffering and the sword few very few of those men are now in existence bamford argues that those daily scourges of such often ignored factors as noncombat deaths and equine strength and losses determined outcomes on the battlefield in the nineteenth century the british army was a collection of regiments rather than a single unified body and the regimental system bore the responsibility of supplying manpower on that field between 1808 and 1815 when britain was fighting a global conflict far greater than its military capabilities the system nearly collapsed only a few advantages narrowly outweighed the army s increasing inability to meet manpower requirements this book examines those critical dynamics in britain s major early nineteenth century campaigns the peninsular war 1808 1814 the walcheren expedition 1809 the american war 1812 1815 and the growing commitments in northern europe from 1813 on drawn from primary documents bamford s statistical analysis compares the vast disparities between regiments and different theatres of war and complements recent studies of health and sickness in the british army

ethics and auditing examines ethical challenges exposed by recent accounting and auditing lapses through a study of interconnected moral legal and accounting issues the book aims to engage a broad readership in the discussion of audit failure and reform with its range of intellectual and practical perspectives ethics and auditing provides critical analyses of auditor independence conflicts of interest self regulation the setting and enforcing of auditing standards and ethics education
