even in the third decade of the twenty first century it is still harder for women to make a career in science than men two centuries ago however at the beginning of the nineteenth century when science as we know it was just getting started the situation was far worse then the very notion of a female scientist would have been regarded as something of an oxymoron from bestselling and award winning science writers john and mary gribbin against the odds highlights the achievements of women who overcame hurdles

and achieved scientific success although not always as much as they deserved in spite of male prejudice as society changed over about 150 years from the middle of the nineteenth century to the end of the twentieth century there is Eunice Newton Foote who discovered the carbon dioxide greenhouse effect Chien Shiung Wu who discovered the law which allows matter to exist in the universe today and Barbara McClintock who discovered how genes turn on and off with a foreword from astrophysicist Jocelyn Bell Burnell this book is not only a cautionary tale about the stifling effects of prejudice against women in science but is a celebration of those who achieved success against the odds and an inspiration for the next generation

Alcorn State University was founded in 1871 making it the oldest public historically black land grant institution in the United States Alcorn has undergone numerous changes and expansions over the years and it continues to produce notable alumni and scholars in more than fifty fields succeeding against great odds covers nearly a quarter of a century since Josephine McCann Posey's first institutional history of Alcorn against great odds the history of Alcorn State University this new book briefly summarizes the first 123 years of Alcorn's history the volume then explores the tenure of three interim and/or acting presidents Drs. Rudolph E. Waters Sr., Malvin A. Williams Sr., and Norris A. Edney Sr. with Edney serving twice and permanent presidents Drs. Clinton Bristow Jr., George E. Ross, M. Christopher Brown II, and Alfred Rankins Jr. who have all served since against great odds was published in 1994 this comprehensive narrative shows the university confidently advancing in the twenty-first century proud of its distinctive heritage and intent on overcoming obstacles to continue a long tradition of excellence succeeding against great odds includes numerous appendices to document the illustrious history of Alcorn its accomplishments and particularly the people who have shaped the institution

over one hundred presentations from the 35th annual Charleston Library Conference held November 4-7, 2015 are included in this annual proceedings volume major themes of the meeting included streaming video analysis and assessment demand driven acquisition the future of university presses and open access publishing while the Charleston meeting remains a core one for acquisitions librarians in dialog with publishers and vendors the breadth of coverage of this volume reflects the fact that this conference is now one of the major venues for leaders in the publishing and library communities to shape strategy and prepare for the future almost 1,800 delegates attended the 2015 meeting ranging from the staff of small public library systems to the CEOs of major corporations this fully indexed copyedited volume provides a rich source for the latest evidence based research and lessons

from practice in a range of information science fields the contributors are leaders in the library publishing and vendor communities

a step by step guide to learning the implementation and associated methodologies in quantum computing with the help of the ibm quantum experience qiskit and python that will have you up and running and productive in no time key featuresdetermine the difference between classical computers and quantum computersunderstand the quantum computational principles such as superposition and entanglement and how they are leveraged on ibm quantum experience systemsrun your own quantum experiments and applications by integrating with qiskitbook description ibm quantum experience is a platform that enables developers to learn the basics of quantum computing by allowing them to run experiments on a quantum computing simulator and a real quantum computer this book will explain the basic principles of quantum mechanics the principles involved in quantum computing and the implementation of quantum algorithms and experiments on ibm s quantum processors you will start working with simple programs that illustrate quantum computing principles and slowly work your way up to more complex programs and algorithms that leverage quantum computing as you build on your knowledge you ll understand the functionality of ibm quantum experience and the various resources it offers furthermore you ll not only learn the differences between the various quantum computers but also the various simulators available later you ll explore the basics of quantum computing quantum volume and a few basic algorithms all while optimally using the resources available on ibm quantum experience by the end of this book you ll learn how to build quantum programs on your own and have gained practical quantum computing skills that you can apply to your business what you will learnexplore quantum computational principles such as superposition and quantum entanglementbecome familiar with the contents and layout of the ibm quantum experienceunderstand quantum gates and how they operate on qubitsdiscover the quantum information science kit and its elements such as terra and aerget to grips with quantum algorithms such as bell state deutsch jozsa grover s algorithm and shor s algorithmhow to create and visualize a quantum circuitwho this book is for this book is for python developers who are looking to learn quantum computing and put their knowledge to use in practical situations with the help of ibm quantum experience some background in computer science and high school level physics and math is required

in the new millennium an incredible opportunity has appeared to the body of christ the new self publishing paradigm it is my belief that the lord intends to use this gift as a tool to disciple the church and to plant seeds for the final harvest only time will tell about this

regardless the role of christian author in the midst of all that is going on in the world needs careful examination if the lord has called you to write what does that mean you have been called by the lord of lords to do this work he has given you to do that s real serious this is god talking to you what does he expect from you how are you to respond what skills will you need how will you get your books to sell the questions keep appearing before our eyes one after the other as we struggle to make sense of it all so who am i to try and help one compelled to write about these issues and to encourage christian authors to walk the strait and narrow path i ve been teaching scripture since 1974 which is almost as long as i have been working for publishers and designing books i was a teaching pastor for over a decade but none of that matters what matters is how you react to the message

scientists predict the earth is facing 40 to 60 years of climate change even if emissions of carbon dioxide and other global warming gases stopped today one inevitable consequence of the greenhouse gases already in the atmosphere will be an increase in the frequency and severity of natural disaster events global warming natural hazards and eme

governments the world over want to spend more on infrastructure the benchmark for developing countries is 7 8 of gdp per annum to lay the foundation for sustained and inclusive growth india is no exception it realizes that more needs to be spent on infrastructure for the country to regain its position as the fastest growing large economy in the world while india spent about 7 2 of its gdp on infrastructure during the eleventh plan period 2008 12 this number has recently come down to approximately 5 the backdrop of the book is the ambitious national infrastructure plan nip the task force report on the nip was finalized in april 2020 since infrastructure investment is crucial to faster and inclusive growth it is timely that the nip is actioned now given that the indian economy contracted to 7 3 in the financial year 2020 21 this book discusses various aspects of infrastructure financing in detail with a major section devoted to green financing of infrastructure

this book explores the role of regulatory bodies and their emergence as the fourth branch of governments it brings together professionals academicians and experts working in regulatory sector to present a foundational text on regulatory regime in india from case studies to theoretical interventions the book brings together a wide range of insights on an important but often neglected aspect of governance it examines a range of themes including the need for regulatory policy in a post covid world regulatory

excellence impact of regulatory assessments regulation of hazard competition commissions regulation of digital assets stakeholder interests and investor activism and anti trust laws the volume will be of great interest to scholars and researchers of law and governance public policy and south asian studies

a fortnightly bulletin on financial and political trends
