feb 22 2011 nan see for yourself console log null undefined the difference between null and undefined is nan note that this is an attempt at humour before you flame me for misunderstanding

if it is undefined it will not be equal to a string that contains the characters undefined as the string is not undefined you can check the type of the variable

apr 22 2009 the biggest misconception in many of the answers here is that undefined is a javascript keyword it s not a keyword at all but a variable that most of the time happens to be undefined so

may 7 2009 assigning undefined to a variable though is probably confusing since it s a bit of a paradox you ve defined the variable as undefined and it s not possible to distinguish that variable

while literally using the keyword undefined boolean undefined works trying that with an undefined variable doesn t work and that is the whole point of doing the check for null or undefined

dec 31 2009 typeof foo undefined window foo undefined foo in window the first two should be equivalent as long as foo isn't shadowed by a local variable whereas the last one will return true

jan 18 2011 391 the jquery core style guidelines suggest two different ways to check whether a variable is defined global variables typeof variable undefined local variables variable

feb 24 2011 how do i check a variable if it's null or undefined and what is the difference between the null and undefined what is the difference between and it's hard to search google for

why write an exception to handle undefined being declared by another developer when you can just do it correctly to begin with jquery wraps the initial anonymous function as you show in your function to

dec 17 2013 there are 3 undefined in javascript the global variable undefined the value undefined and the type undefined even if the global variable undefined is overridden the value undefined still
