this updated and revised second edition examines the conceptualisation and evolution of peace in international relations
ir theory the book examines the concept of peace and its usage in the main theoretical debates in ir including realism liberalism constructivism critical theory and post structuralism as well as in the more direct debates on peace and conflict studies it explores themes relating to culture development agency and structure not just in terms of representations of ir and of peace but in terms of the discipline of ir itself the work also specifically explores the recent mantras associated with liberal and neoliberal versions of peace which appear to have become foundational for much of the mainstream literature and for doctrines for peace and development in the policy world analysing war has often led to the dominance and mitigation of violence as a basic assumption in and response to the problems of ir this study aims to redress this negative balance by arguing that the discipline offers a rich basis for the study of peace which has advanced significantly over the last century or so it also

proposes innovative theoretical dimensions of the study of peace with new chapters discussing post colonial and digital developments this book will be of great interest to students of peace and conflict studies politics and ir

this book examines the way in which peace is conceptualized in ir theory a topic which has until now been largely overlooked the volume explores the way peace has been implicitly conceptualized within the different strands of ir theory and in the policy world as exemplified through practices in the peacebuilding efforts since the end of the cold war issues addressed include the problem of how peace efforts become sustainable rather than merely inscribed in international and state level diplomatic and military frameworks the book also explores themes relating to culture development agency and structure it explores in particular the current mantras associated with the liberal peace which appears to have become a foundational assumption of much of mainstream ir and the policy world analyzing war has often led to the dominance of violence as a basic assumption in and response to the problems of international relations this book aims to redress the balance by arguing that ir now in fact offers a rich basis for the study of peace

sport and physical activity are now regularly used to promote social and economic development peacebuilding and conflict resolution on an international scale the emergence of the sport for development and peace sdp sector comprised of governments ngos sport organizations and others reveals a high level of institutionalization of this activity while sdp now constitutes an important element of the scholarly analysis of sport this volume analyses and critically discusses the central elements of and research issues within the field of sdp and also provides a series of case studies substantive and geographic of key research it is the most holistic and far reaching text published on this topic to date featuring multidisciplinary perspectives from world leading researchers and practitioners from around the world the book covers a wide range of topics including sdp structures policies and funding streams how sdp relates to human rights social exclusion and corporate social responsibility sdp and gender sdp and disability sdp and health sdp and homelessness and sdp and the environment the handbook of sport for development and peace is a vital resource for researchers students and educators in the fields of sports studies physical education sport for development and peace sport based youth development sport and politics sociology of sport and sport policy

written by a team of experienced teachers and researchers in peace studies this book assesses the field of peace and conflict research from its origins to the present day it introduces influential concepts and theories and examines the processes and dynamics of peacebuilding using case studies from around the globe the book discusses a range of key topics in peace studies such as the meanings of peace the causes of violent political conflict peace processes and peace agreements international peace and security peace activism and the role of civil society human rights transitional justice and reconciliation asylum migration and borders gender

war and peace sustainable development and peace religion conflict and peace arts sport and peace and peace education the book will be of interest to scholars and students in peace studies international relations security studies war and conflict studies conflict transformation as well as anyone interested in the research and practice of peace

democracies are extremely unlikely to wage war against other democracies this main proposition of the democratic peace theory constitutes the starting point for this volume chapters authored by experts from different parts of the world explore the concept of democratic peace in greater depth in relation to selected issue areas and in comparison to other concepts such as security communities or concert of powers the role and significance of international organizations and gender equality for instance are discussed and assessed in this context the objective guiding this exercise is to give an answer to the question as to whether democratic peace and the other two concepts i e security communities and concert of powers can provide a solution to today s security challenges and constitute a guide to peaceful co existence and conflict settlement so the chapters discuss intellectual frameworks at some length at the same time reflecting on potential inferences for the outside world and highlighting associated challenges limits or even possible adverse implications

a contemporary exploration of peace and conflict studies that is both broad and critical

the women peace and security wps agenda is celebrated as a landmark global framework for achieving gender equality in peace and security governance its power is visible in two decades of united nations resolutions national action plans regional initiatives and countless activist academic and philanthropic projects yet despite this vitality it is haunted by failure as a lack of political will and stubborn patriarchal resistance frustrate its promise this book offers a groundbreaking critical account of the wps agenda exploring its evolution in relation to the wider politics of global governance and feminism paul kirby and laura j shepherd argue that wps is not a settled cohesive policy but a field in flux defined and disrupted by a growing number of national supranational subnational and transnational agents who in turn act on an expanding catalogue of threats from climate change to homophobia challenging traditional boundaries of peace and security kirby and shepherd reconceptualize wps as a policy ecosystem tracing interaction and contestation around the agenda across levels from the un security council to military alliances to feminist activists they combine analysis of a vast dataset of policy documents with key informant interviews and close readings of diplomacy statecraft the politics of indigeneity counterinsurgency antimilitarism human rights and the arms trade across the first twenty years of wps far reaching and incisive governing the feminist peace poses a provocative question what if we abandoned the idea of the wps agenda as a unified political project altogether

new approaches to understanding war and peace in the changing international system what causes war how can wars be prevented scholars and policymakers have sought the answers to

these questions for centuries although wars continue to occur recent scholarship has made progress toward developing more sophisticated and perhaps more useful theories on the causes and prevention of war this volume includes essays by leading scholars on contemporary approaches to understanding war and peace the essays include expositions analyses and critiques of some of the more prominent and enduring explanations of war several authors discuss realist theories of war which focus on the distribution of power and the potential for offensive war others examine the prominent hypothesis that the spread of democracy will usher in an era of peace in light of the apparent increase in nationalism and ethnic conflict several authors present hypotheses on how nationalism causes war and how such wars can be controlled contributors also engage in a vigorous debate on whether international institutions can promote peace in a section on war and peace in the changing international system several authors consider whether rising levels of international economic independence and environmental scarcity will influence the likelihood of war

violent conflicts today are complex and increasingly protracted involving more nonstate groups and regional and international actors it is estimated that by 2030 the horizon set by the international community for achieving the sustainable development goals more than half of the world's poor will be living in countries affected by high levels of violence information and communication technology population movements and climate change are also creating shared risks that must be managed at both national and international levels pathways for peace is a joint united nations world bank group study that originates from the conviction that the international community's attention must urgently be refocused on prevention a scaled up system for preventive action would save between us 5 billion and us 70 billion per year which could be reinvested in reducing poverty and improving the well being of populations the study aims to improve the way in which domestic development processes interact with security diplomacy mediation and other efforts to prevent conflicts from becoming violent it stresses the importance of grievances related to exclusion from access to power natural resources security and justice for example that are at the root of many violent conflicts today based on a review of cases in which prevention has been successful the study makes recommendations for countries facing emerging risks of violent conflict as well as for the international community development policies and programs must be a core part of preventive efforts when risks are high or building up inclusive solutions through dialogue adapted macroeconomic policies institutional reform and redistributive policies are required inclusion is key and preventive action needs to adopt a more people centered approach that includes mainstreaming citizen engagement enhancing the participation of women and youth in decision making is fundamental to sustaining peace as well as long term policies to address the aspirations of women and young people

the so called ivory tower is not and never has been isolated from real world politics
